

Profile

I am reviewed as a remarkable student, constantly taking a stab at difficult tasks. My confidence and maturity are applauded by fellow peers and faculty. I am regarded as a leader and role model, which is evident through my countless accomplishments; notwithstanding that, I can assume responsibility and function well with a group.

Employability skills

I have developed and honed many skills such as teamwork, leadership, time management, communication, ability to work under pressure, decision making, and adaptability and significantly more to be the best that I can be. These were all due to the many countless feats of my time at school and outside of school.

Teamwork: Being part of sports excellence for 3 years (where I work with other sports leaders and help out with children younger than me with sports and activities, training to work with younger children and training them to work physically to their best.)

Leadership: As a Senior Prefect I have the obligation of a leader particularly when you consider the fact I am also Head boy for the school. This has taught me how to help others and listen to problems very carefully.

Decision Making: Leading groups in software projects has shown me the importance of making the right decision at crucial moments as you may never comprehend what may go down.

Adaptability: Taking part in the cultural citizen bronze award program has placed me in many situations causing me to be flexible and change the environment around me to improve the situation.

Work Experience

Web Designer, Make a difference at Sandies, Romford

April 2018 - June 2018

- Planned, designed and produced a simple minimalist website showcasing information about the charity, what they do, where they are located and how to donate.
- Updating social media pages with new relevant information.

Admin Assistant, Leys Children Centre, Dagenham

April 2018

- Maintained, updated and logged parents and children information on the company database and Microsoft excel.
- Using Excel and formulas to calculate monthly costs for the company.
- Typing up scenarios and daily activities as they went by.
- Cleaning up Excel files.
- Receiving phone calls and sending emails to parents.
- Planned and ran multiple children's activities.
- Created and displayed artwork for children play areas.
- Filed important documents in their colour coded designated areas.
- Photocopy documents for company and parents.
- Shredded old documents that are no longer relevant or needed. (according to the data protection act 2018).

Other achievements/roles include;

Interests

Sports: I believe a healthy body is a key to a focused mind and a good spirit. I have numerous medals from winning and participating in the borough athletics. I've played on many teams and I believe I have gained communication skills and increased my self-confidence by working in teams.

Computing: I enjoy working with a computer and using distinctive applications that are on it. I am quite skilled with Microsoft Excel and know how to use many functions on it. In addition, I know how to utilize some programming languages such as Python and C# to code stuff from a straightforward adding machine to simple games.

Design: I enjoy planning and drawing out images. I have also practised digital arts and have created a variety of portraits and fan art.

Problem Solving: I attempt diverse puzzles whether it's a game on my phone, on my computer or in the newspaper. I believe puzzles help with logical abilities.

Games: Games that require a great deal of reasoning such as chess or complicated video games are extremely engaging to me as I get to strategize.
